

New-Indy Catawba LLC  
Catawba, South Carolina  
Public Notification of Planned Activity

---

**UPDATE Dated 1.28.2022**

**to**

**Public Notification of Planned Activity  
August 16, 2021**

In accordance with Paragraph 1 of the South Carolina Department of Health and Environmental Control ("DHEC") Order dated May 7, 2021 and New-Indy Catawba LLC's ("New-Indy") Public Notification Plan dated May 17, 2021, New-Indy presents the following update to the Public Notification dated 8.16.2021.

**Description of Planned Activity:**

On August 16, 2021, New-Indy issued a public notice of its intention to remove accumulated solids from the Equalization Basin (EQ Basin). To date, New-Indy has removed approximately 89,000 cubic yards of solids from the EQ Basin. In completing this planned activity, New-Indy has effectively controlled the generation and release of hydrogen sulfide, with all onsite fence line and offsite monitors demonstrating that hydrogen sulfide levels have remained well below the risk levels and exposure guidelines defined by EPA. Work to remove a projected additional 50,000 cubic yards of solids will continue over the next two months.

**Purpose of Planned Activity:**

To increase capacity in the EQ Basin.

**Date of Planned Activity:**

The work commenced on August 18, 2021 and will continue for approximately two more months.

**Contact Information:**

New-Indy may be reached at [catawba.info@new-indycb.com](mailto:catawba.info@new-indycb.com) concerning this activity.
